

Coaster

(90mm x 90mm)

Non text area 3mm

Bleed Area 2mm: The bleed area extends out 2mm from the edge of your finished document. All images or colours that print to the edge of your document should be extended into this area to avoid any chance of any white lines appearing. Do not place any content that you wish to appear in your document in this area as it will be trimmed off.

Trim Area: This is the finished size of your document. Anything placed outside of this area will be trimmed off.

Non Text Area: Avoid putting any text 3mm from the edge of the document. Text placed in this area will run very close to the edge of the document and could possibly get trimmed off or cut into where the wire holes are inserted. If possible also avoid using any thin borders in this area as you may get an inconsistent thickness.
